5) the start of IPOG (international pediatric oncology guidelines) L Dupuis

The International Paediatric Oncology Guidelines in Supportive Care Network (iPOG Network) is a voluntary collaboration of organisations that are developing or endorsing clinical practice guidelines for the supportive care of children with cancer or undergoing bone marrow transplant. The iPOG Network aims to share best practices among clinicians, coordinate supportive care guideline development efforts internationally and communicate the existing evidence gaps to the research community.

Find out more by visiting the iPOG website

Or by emailing m.d.vandewetering@amc.nl or lee.dupuis@sickkids.ca

(this will also be placed on the SIOP website)

6); workshop ideas for 2016 and how to move supportive care SIOP forwards

Next SIOP Meeting will take place in Dublin, A possible plan could be that we share a meeting with other groups on day -1 or at day +1. The content of the SIOP conference for Dublin has already been decided by the board (as usual during the current meeting).

A potential topic for the above mentioned Meeting with other Groups (e.g., PODC) could be the development of guidelines for high- and low-income countries.

-we should address that we would like to have a Symposium/any other activity in the SIOP Meeting 2017 in Washington DC (this will be decided next year in Dublin)

7); composition study group; M van de Wetering chair and T Lehrnbecher chair

New members who are interested in co-chair position, or chair position for 2016

During meeting Prof Dr Rejin Kebudi pediatric oncologist Turkey volunteered to accept chair position supportive care working group

If other people interested let me know before Feb 2016 and we will vote for this position and then I can discuss it with the board.

Thank you for attending. Hope to see you in Dublin

Marianne van de Wetering and Thomas Lehrnbecher (co-chairs)
