

Save the Date:

Opening Symposium for the new Treatment and Research Center for Pediatric Oncology and Hematology Heidelberg

19th & 20th January 2017 in Heidelberg, Germany

“Deadly diseases are becoming curable”

We would like to cordially invite you to next year's Opening Symposium for the new *Treatment and Research Center for Pediatric Oncology and Hematology* in Heidelberg, Germany, on January 19-20, 2017.

The symposium will take place in the Print Media Academy in Heidelberg, starting at 9am on Thursday 19th January and ending at 4pm on Friday 20th January. Abstract submission for oral as well as poster presentations will be announced shortly, and we are happy to be able to confirm the following list of outstanding speakers:

Jean-Pierre Bourquin, Clara Camaschella, Jürgen Debus, Angelika Eggert, Richard Gilbertson, Doug Higgs, Paul Northcott, Roland Rad, Gudrun Schleiermacher, Louis Stancato, Renata Stripecke, Poul Sørensen, Michael Taylor, Gilles Vassal.

We are delighted to present an exciting and stimulating scientific program that covers a wide range of important aspects of cancer biology. Focus areas of this symposium include:

- Epigenetics
- Precision medicine & novel therapeutic concepts
- Heterogeneity, clonal evolution and resistance
- Pre-clinical models
- Genomics and molecular classification
- Immunology & Immunotherapy
- Novel approaches in radiotherapy

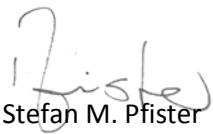

Fortunately, we were able to raise some sponsorship to cover part of our costs, meaning that the registration fee for this 2-day meeting is only €150.

As a social event, we have arranged a gala dinner at the famous Heidelberg Castle for the evening of 19th January (additional fee payable; more details upon registration).

We would kindly like to ask you to arrange flights and transportation to Heidelberg individually, from Frankfurt airport either by shuttle service or by train. Please note that all venues in Heidelberg are within walking distance. Some useful links can be found below.

Please feel free to contact us (i.oezen@dkfz.de) with any questions.

We are looking forward to hosting you in Heidelberg!

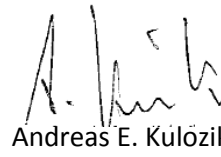

Stefan M. Pfister
