

Virtual Fellowship Program Components

Virtual Pediatric Neuro-Oncology Fellowship (VPNOF)

The St. Jude Global Neuro-Oncology Program is excited to announce the new application season for our Virtual Pediatric Neuro-Oncology Fellowship (VPNOF). In 2022, five fellows were selected from five different countries for a **first-of-its-kind virtual training and mentorship program** including expert guidance and mentorship in pediatric neuro-oncology, *all while remaining at their home institution*. Fellowship duration is 18-24 months.

In 2023, we will be accepting six fellows to train with global mentors from among a panel of world-renowned pediatric neuro-oncologists through:

- virtual clinical guidance and case-by-case advice
- virtual tumor boards and teaching sessions
- career mentorship
- two one-month rotations at mentor's institution
- clinical research and presenting at an international conference

Applicant criteria:

- MD degree or equivalent
- Fellowship-trained pediatric oncologist
- Within ten years since end of fellowship
- Demonstrated interest in pediatric neuro-oncology
- Working in a PHO unit that is part of a SJ Global Alliance member institution

Important Dates:

Virtual Info Webinar on March 16th, 2023
7:30 am CST/12:30pm GMT
